Web developer with 3+ years of experience in design, development and support. Seeking a team with an engineering-first culture in which I can apply my knowledge of front and backend development.

Skills

- **Languages:** C#, Javascript, PHP, SQL
- **Frameworks:** .Net, React, Vue, Laravel
- **Unit Testing:** PHP & .Net

- **Tools:** Git, Docker, Figma
- Troubleshooting & Debugging
- Critical thinking and problem solving

Experience

OCTOBER 2016 – PRESENT

Senior Consultant / Radix Bay, Tabor City, NC

- Interface directly with clients to ensure their needs were met on a variety of projects and platforms.
- Augmented both large and small development teams within agile environments to consistently deliver quality solutions.
- Support & development for legacy .Net MVC & PHP applications.
- Designed & developed a .NET Core REST API for internal customer and deployed with docker.
- Planned and executed a project for summer interns providing mentoring and code reviews.
- Prototyped client side application which simulated server side data persistence.

FEBRUARY 2010 – OCTOBER 2016

IT & Web Development / B3C Fuel Solutions, Conway, SC

- Web design, development & maintenance.
- Provided day to day IT support to meet business needs.

Education

MAY 2014

Associates In Applied Science / Horry Georgetown Technical College, Conway SC

- Majored in IT (programming emphasis) and graduated with honors and a 3.84 GPA.
- Developed a weather monitoring application for a local elementary school's weather watchers club.
- Primary backend developer for senior capstone project.
